Hi Bill

Here in the UK all vehicles have to be tested annually for road worthiness. It includes measuring emissions.

Last year my Fiat Punto petrol car was checked and CO measured 0.021. The pass level is 0.2 so that was pretty good. However, this year, using EnviroTabs, it measure 0.01 or over 50% LOWER. The HC reading last year was 33 ppm, pass mark being 200 ppm, again, pretty good. This year it was measured at just **4 ppm, over 80% LOWER.**

With around 100 extra miles from a quite small tank I am extremely impressed by EnviroTabs. This means I am saving around 30% on my fuel bill.

Many thanks EnviroTabs.
